

Facebook page setup

Step 1 of 5. Build it to match the mockup (pages 7–12). Image files are sent separately.

Page basics

- 1 **Cover photo:** upload **Image-1-Cover-Photo**. Keep it centered, no cropping.
- 2 **Profile picture:** keep the current logo.
- 3 **Bio:** keep our current bio. Do not change it.
- 4 **Details:** phone, website, service area (Jacksonville, FL & surrounding counties), hours.
- 5 **Tabs** (More > Manage Sections): turn on Services, Videos, Reviews, Photos. Turn off the rest.
- 6 **Services tab:** set up in Step 2 (next page).

Book now button

- 1 Switch into the Elite Homes USA Group page profile (not a personal profile).
- 2 Tap “...” next to Message > **Edit action button** (or **Add action button**).
- 3 Select **Book now** > choose **Link to website** > paste our scheduling page URL.
- 4 Save. Test as a visitor: Book now must open the scheduling page.
- 5 Keep **Message** as the second button so the Messenger FAQ buttons still work.

Services tab

Step 2 of 5. Services stay on the page permanently. See how it should look on page 10 (mockup, Services tab).

Turn on the Services tab

- 1 Switch into the Elite Homes USA Group page profile.
- 2 On the page, tap **More** (under the cover) > **Manage Sections**.
- 3 Check **Services** > Save.

Add each service

- 1 Open the **Services** tab > **Add a service**.
- 2 Fill in **Name**, **Description** and **Photo** from the list below. Leave **Price** blank.
- 3 Save. Repeat for each service, in the order listed.

Services to add, in order

- 1 **Name:** Free Property Assessment
Description: 1. Schedule your free assessment. 2. Get your cash number. 3. Close on your date. No cost, no obligation. Tap Book now to schedule.

- 3 **Name:** Inherited / Probate Homes
Description: Inherited a house? We make the process simple and work on your timeline.
Photo: Image-4-Inherited-Homes

- 4 **Name:** As-Is Sales
Description: Sell without fixing or cleaning anything. You pick the closing date.

Note: If **Services** does not appear under Manage Sections, Facebook has not enabled it for our page. Instead, add the Free Property Assessment text above to **About** > **Details**, and tell D.

The pinned post

Step 3 of 5. Only the Meet the Team video is pinned. Nothing else goes in this post.

Note: Facebook Pages allow one pinned post. The pin is **only the Meet the Team video**. Do NOT add the How It Works, Free Assessment or FAQ images to this post. Those go in Services (Step 2), the Videos tab (Step 4) and Photos albums (Step 5).

Create the post

- 1 Switch into the page > **Create post** > **Photo/video**.
- 2 Add **only** the Meet the Team video.
- 3 Caption: "Meet the team at Elite Homes USA Group. Have questions? Watch our short answers in the Videos tab, or tap Book now to schedule your free assessment."
- 4 Publish.

Pin it

- 1 On the post, tap the **three dots (...)** in the top right.
- 2 Tap **Pin to top of Page** (some versions say **Pin post**).
- 3 Check the page as a visitor: the Meet the Team video shows first with a pin icon.

Status post (do not pin)

- 1 After the pin is set, **Create post** > **Photo/video** > add **Image-4-Inherited-Homes**.
- 2 Caption: "Inherited a house you don't want? We buy as-is, no cleanout needed."
- 3 Publish. It shows right under the pinned video.

Note: Where each image goes: **Image-1** = cover photo. **Image-2** and **Image-3** = Services photos + How It Works album. **Image-4** = inherited homes status post. **Cover-1 to Cover-8** = FAQ video thumbnails + Common Questions album.

The 8 FAQ videos

Step 4 of 5. The Videos tab never moves down. Upload the 8 videos and group them in a playlist.

How to upload each video

- 1 Switch into the page › **Videos** tab › **Upload video**.
- 2 Choose the video file for that question.
- 3 **Title** and **Description**: copy from the next page. End every description with: "Book your free assessment: [LINK]".
- 4 **Thumbnail**: tap Thumbnail / Edit cover › **Upload image** › pick the matching Cover file.
- 5 Publish.
- 6 Upload Question 8 first and Question 1 last, so Question 1 shows first.

Make the playlist

- 1 Videos tab › **Create playlist**.
- 2 Name it **Common Questions**.
- 3 Add all 8 videos, in order 1 to 8. Save.

Video copy

Step 4 of 5, continued. Title, description and thumbnail for each video.
